Several of the most prominent members say that if the caucus plan were adepted they would not be surprised if five of the districts went Republican. The impression is very strong to-day that the caucus bill to redistrict will be withdrawn and provision made for a Congressman at large.

THESE DISEASES EASILY PREVENTED.

It would seem that any sensible person, after reading the reports of the Bureau of Vital Statistics published by the Government, would think twice before experimenting with remedies and treatments which these reports prove have been practically worthless in curing or preventing Pneumonia

from these diseases, and that the death-rate increased every year until 1896, when it reached the horrifying total of 254,321; this from Pneumonia and

Consumption alone.

Now, during this whole period, Ten Years, every drug known which could be taken in the stomach, every germicide which could be employed in sprays, vapors or atomizers, were used, and yet medical records do not show one single case of Consumption cured.

show one single case of Consumption cured.

To be sure, thousands of persons afflicted increased their strength and flesh by stomachic tonics, deadened their cough with strong drugs in form of vapors and sprays, and even gave their testimonials, as cured, to the manufacturers of such treatments; but, as statistics prove, the germs of consumption remained in the lungs, and death claimed its victim in the end.

Now let us return to the Reports of the Bureau of Vital Statistics. They show that for the first time in history the increase in death from Pneumonia and Consumption stopped in 1896; they show a slight decrease in 1897. In 1898 and 1899 a still further decrease, and in 1900 he deaths from these diseases were 23,395 less than in 1899, a fact which brought hope and joy to thousands of physicians who for years had been hatting in vain against

to thousands of physicians who for years had been battling in vain against these terrible scourges.

The question then arose, "What has brought about this wonderful change?" In most cases, where so vital a question is to be decided, there is a diversity of opinion. But in this none. Physicians and the United States Health Reports all agreed, and Health statistics proved, that this reduction was due to the use of the new dry-air germicide HYOMEI and sanitation. They go still further, and say most emphatically that no other treament or remedy had anything to do with bringing about this reduction.

To sny that HYOMEI cured 23,305 persons of Pneumonia and Consumption does not give it the credit due, for nine-tenths of the victims of these diseases are recruited from persons afflicted with coughs, cutarrh and bronchitis, and in order to reduce the death-rate from Consumption and

HYOMEI first came into general use in 1830, and according to statistics furnished by the Government, the increase in deaths from Consumption stopped then. Why? # THE DANGER OF WINTER IS CATARRH.

Three Public Men Tell How Pe-ru-na Has Promptly Eradicated Catarrh.

Hon, J. Neiter, a member of the IIII-nois State Legislature, writes from 1325 Wrightwood Avenue, Chicago, III., as foi-

"Conspicuous among the great reme dies of the day stands Peruna. I believe it has well earned the reputation it has to-day as the best remedy for catarrh known to the medical profession. Honest doctors will admit this, as does every one else who has tried it. I know of nothing better to keep the system in a healthy condition."-J. Nelter.

### CATARRH SYMPTOMS.

As Described by Dr. Hartman in a Reeant Lecture.
The symptoms vary according to the

place where the catarrh is located. Catarrh in the head; nose stopped up, pain in forchead, scabs in the nose, bad breath, snoring, sneezing, watery eyes. Catarrh of the throat: voice husky or hoarse, tickling in the throat, hawking, spit-ting, sore throat and enlarged tonsils. Catarrh of the bronchial types: cough, pain in chest. This form of catarrh will soon end in consumption if not cured. Dr. Hartman used Peruna in over thir-

ty thousand cases before it was introduc ed to the general public as a catarrh remedy. Peruna as a remedy for coughs, colds, acute or chronic catarrh, has become known all over the civilized por-

tions of North America.

The reasons for which Peruna has taken the lead of all other catarrh remedies

are: First, it never fails to cure when properly used; second, it permanently cures instead of giving temporary relief; third, it cures catarrh wherever located and, fourth, it is composed entirely of vegetable products and is perfectly harm less. The personal advice of Dr. Hart-man in any case of chronic catarrh can be had free of charge by letter by any

runa as a catarrh cure get it and begin treatment. Some of these people write to Dr. Harbman. Hundreds of these are received by the doctor every day, letters are all promptly answered free.
